

**EP - R30, R40 Metal Reflector Compact Fluorescent Lamp**

*Working For A Brighter World*

**Features:**

- The anti-glare coating gives more eye perceivable lumen, and makes uniform wide flood beam providing smooth, comfortable, even light distribution
- Stylish design combined energy saving lamp with elegant R30 or R40 metal reflector with or without lens, ideal for tracking and recessed indoor and outdoor (dry location) lighting
- Present energy efficiency, 10 times longer life and 75% less energy than incandescent floods
- Integrated electronic ballast ensures flicker-free immediate start, no glare and silent operation

**Applications:**

Recessed Lighting  
 Corridors/Lobbies  
 Food Service and Fashion Display Lighting  
 Reception Areas

**Ideal for:**

Hotel/Motel  
 Offices  
 Education  
 Residences  
 Restaurants  
 Shops  
 Healthcare

RD-Recessed downlight
