

EnergyMaster Series Dimmable LED BR20, BR30 & BR40 Lamps

Features:

- Enhanced second generation technology with high performance chips provides instant-on start with full brightness and allows effective flicker-free dimming
- Diffused lens offers smooth & comfortable light distribution along with continuous dimming achieves great energy saving while efficiently meeting light needs as desired
- Excellent thermal solution together with highly stabled integrated driver guarantees durable life, more than 20 times longer than incandescent BR lamps
- Mercury free and professional design makes it ideally direct replacement to halogen BR and incandescent R flood lamps

9W: 520lm 50W(BR20): 450lm
15W: 865lm 85W(BR30): 850lm
18W: 1100lm 120W(BR40): 1150lm
Last 36 years Replace in 22 months

Ideal for:

Hotel/Motel Restaurants Property Management
Healthcare Office Retails/Show Room Residential
